## **VNSNY CHOICE SelectHealth Formulary**

*July 2020*

### **Foreword**

MedImpact is a Pharmacy Benefit Manager for VNSNY CHOICE SelectHealth. This document represents the efforts of the MedImpact Healthcare Systems Pharmacy and Therapeutics (P&T) and Formulary Committees to provide physicians and pharmacists with a method to evaluate the safety, efficacy and cost-effectiveness of commercially available drug products. A structured approach to the drug selection process is essential in ensuring continuing patient access to rational drug therapies.

This is accomplished through the auspices of the MedImpact P&T and Formulary Committees. These committees meet quarterly and more often as warranted to ensure clinical relevancy of the Formulary. To accommodate changes to this document, updates are made accessible as necessary.

***Access to the most current version of the VNSNY CHOICE SelectHealth Formulary can be obtained by visiting*** [\*\*\*www.vnsnychoice.org\*\*\*](http://www.vnsnychoice.org)

The MedImpact P&T and Formulary Committees use the following criteria in the evaluation of drug selection for VNSNY CHOICE SelectHealth Formulary:

- Drug safety profile
- Drug efficacy
- Comparison of relevant therapeutic benefits to current formulary agents of similar use, and to minimize therapeutic duplication where possible
- Cost-effectiveness relative to comparable therapies

### **How to Use the Formulary**

The Formulary is a list of medications available to VNSNY CHOICE SelectHealth members under their pharmacy benefit. All drugs are listed by their generic names and most common proprietary (branded) name. The Formulary may be accessed by using the index, either by generic or proprietary name and by therapeutic drug category. *In situations where an FDA approved generic equivalent is available, brand names are listed for reference purposes only, and do not denote coverage for the brand, unless specifically noted.*

All drugs are listed in each category in alphabetical order by generic name. Where an FDA approved generic is available for the listed generic name, the generic name is **bolded**.

For certain agents within the Formulary, a recommended prescribing guideline may apply. These are denoted throughout the document using the following symbols:

|     |                     |  |
|-----|---------------------|--|
| AGE | Age Edit            | Coverage may depend on patient age   |
| G   | Gender Edit         | Coverage may depend on patient gender  |
| PA  | Prior Authorization | Requires specific physician request process  |
| QL  | Quantity Limit      | Coverage may be limited to specific quantities per prescription and/or time period |
| ST  | Step Therapy        | Coverage may depend on previous use of another drug                                |

Please refer to the prescribing guideline appendix within this document for details regarding specific agents.

## **Benefit Coverage and Limitations**

This printed Formulary does not provide information regarding the specific coverage and limitations an individual member may be subject to. Many members have specific benefit inclusions, exclusions, copays, or a lack of coverage, which are not reflected in the Formulary.

The Formulary applies only to outpatient drugs provided to members, and does not apply to medications used in inpatient settings. If a member has any specific questions regarding their coverage, they should contact VNSNY CHOICE SelectHealth Member Services at 1-866-469-7774 Monday through Friday, 8:00 am to 6:00 pm. TTY users call 711.

**Depending upon a member's specific benefit parameters, the following topics may apply:**

### **1. Generic Substitution**

When available, FDA approved generic drugs are to be used in all situations, regardless of the brand name indicated. The generic names are **bolded** in the formulary listing wherever an FDA approved generic drug product is available. Greater economy is realized through the use of generic equivalents. This policy is not meant to preclude or supplant any state statutes that may exist. All drugs that are or become available generically are subject to review by MedImpact's Pharmacy and Therapeutics Committee. MedImpact approves such multi-source drugs for addition to the MAC list based on the following criteria:

- A multi-source drug product manufactured by at least one (1) nationally marketed company.
- At least one (1) of the generic manufacturer's products must have an "A" rating or the generic product has been determined to be unassociated with efficacy, safety or bioequivalence concerns by the MedImpact P&T Committee.
- Drug product will be approved for generic substitution by the MedImpact P&T Committee.

This list is reviewed and updated periodically based on the clinical literature and pharmacokinetic characteristics of currently available versions of these drug products.

If a member or physician requests a brand name product in lieu of an approved generic, and physician determines that there is a documented medical need for the brand equivalent, a request for coverage may be made using the medication request process at 1-888-678-7741, 24 hours a day, and 7 days a week.

### **2. Tier Benefit Design**

The Formulary may be applied to a tier benefit design, where the member shares the cost of prescription drug therapy based on the drug's tier and copayment or coinsurance. In most instances, generically available drugs will be covered in a separate lower tier (low copay), preferred branded drugs listed on the Formulary will be covered under a higher tier, and branded drugs not on the Formulary will be covered under a separate non-preferred branded drug copay tier. Essential health benefit/preventative medications, if available on your plans formulary (applies to new and non-grandfathered plans), will be covered without cost sharing (zero copay).

#### **TIER DEFINITIONS:**

TIER 1: Preferred generic medications (formulary agents)

TIER 2: Preferred brand medications (formulary agents)

TIER 3: Non-preferred medications (non-formulary agents)

TIER 4: Zero Copay/Preventative medications

TIER 5: Over the Counter (OTC)

### **3. Medication Request Process**

Depending upon plan benefit design, a medication request process may apply as follows:

#### A. Coverage Exceptions:

Drugs that are listed in the Formulary with associated Prior Authorization (PA) require evaluation, per MedImpact P&T Committee Prior Authorization guidelines prior to dispensing at a network pharmacy. Each request will be reviewed on an individual patient need basis. If the request does not meet the guidelines established by the P&T Committee, the request will not be approved and alternative therapy may be recommended.

#### B. Obtaining Coverage:

Coverage, questions or information regarding the medication request or formulary process may be obtained by:

1. Faxing a completed **Medication Request Form** to MedImpact at 1-858-790-7100.
2. Contacting MedImpact at 1-888-678-7741 and providing all necessary information requested.

MedImpact will provide an authorization number, specific for the medical need, for all approved requests. Non-approved requests may be appealed. The prescriber must provide information to support the appeal on the basis of medical necessity. Prior Authorization is generally not available for drugs that are specifically excluded by benefit design.

### **4. General Exclusions**

- A. Drugs specifically listed as not covered.
- B. Any drug products used for cosmetic purposes.
- C. Experimental drug products or any drug product used in an experimental manner.
- D. Replacement of lost or stolen medication.
- E. Non-self-administered injectable drug products unless otherwise specified in the Formulary listing.
- F. Foreign sourced drugs or drugs not approved by the United States Food & Drug Administration, except in certain cases of drug shortage, when allowed under the individual's pharmacy benefit.

The P&T and Formulary Committees recognize that not all medical needs can be met with this document and encourage inquiries about alternative therapies.

### **5. Pharmacist and Physician Communication**

The Formulary is a tool to promote cost-effective prescription drug use. The P&T and Formulary Committees have made every attempt to create a document that meets all therapeutic needs; however, the art of medicine makes this a formidable task. MedImpact welcomes the participation of physicians, pharmacists, and ancillary medical providers, in this dynamic process. Physicians and pharmacists are encouraged to direct any suggestions, comments or formulary additions to MedImpact at the following address:

## Instructional Information for Prior Authorization

---

Upon our review of all required information, you will be contacted by the health plan.

When providing required clinical information, the following elements should be considered within the rationale to support your medical necessity request:

- Height/Weight
- Compound ingredients
- Specific dosage form consideration
- Drug or Other Related Allergies

Please consider providing the following information as applicable & when available:

- Healthcare Common Procedure Coding System (HCPCS)<sup>4</sup>
- Transition of Care Hospital and/or Residential Treatment Facilities Information (contact, phone number, length of stay)
- Life Situations Information such as foster care transition, homelessness, poly-substance abuse and history of poor medication adherence
- Patient information (address, phone number)
- Provider information (direct electronic contact information: e-mail, etc.)

\*An expedited review will be considered when a condition exists that places the health or safety of the person afflicted with such condition or other person (s) in serious jeopardy. An emergency 72 hour supply (5 day supply for medications to treat substance use disorders) may be requested by the provider in cases where an emergency condition exists as defined above.

### **Prólogo**

MedImpact es un administrador del beneficio de farmacia para VNSNY CHOICE SelectHealth. Este documento representa los esfuerzos de los Comités de Farmacia y Terapéutica de MedImpact Healthcare Systems (Pharmacy and Therapeutics, P&T) y el Formulario para proporcionar a los médicos y farmacéuticos un método para evaluar la seguridad, eficacia y rentabilidad de los productos medicinales disponibles comercialmente. Un enfoque estructurado al proceso de selección del medicamento es esencial para asegurar el acceso continuo del paciente a las terapias racionales de medicamentos.

Esto se lleva a cabo a través de los auspicios de los Comités de P&T y la Lista de medicamentos de MedImpact. Estos comités se reúnen trimestralmente y con más frecuencia si es necesario para asegurar la relevancia clínica de la lista de medicamentos. Para adaptar los cambios a este documento, las actualizaciones se encuentran accesibles según sea necesario.

***El acceso a la versión más actualizada del Formulario de VNSNY CHOICE SelectHealth se puede obtener visitando [www.vnsnychoice.org](http://www.vnsnychoice.org)***

Los Comités de P&T y de la Lista de medicamentos de MedImpact usan los siguientes criterios en la evaluación de selección de medicamentos para la Lista de medicamentos de VNSNY CHOICE SelectHealth:

- Perfil de seguridad del medicamento
- Eficacia del medicamento
- Comparación de beneficios terapéuticos relevantes con agentes actuales de uso similar de la Lista de medicamentos, y para minimizar duplicidad terapéutica cuando sea posible
- Costo-efectividad en relación a terapias comparables

### **Cómo usar la Lista de medicamentos**

La Lista de medicamentos es un listado de medicamentos disponibles para los afiliados de VNSNY CHOICE SelectHealth bajo su beneficio de farmacia. Todos los medicamentos están listados por sus nombres genéricos y nombre comercial más común (marca). Puede obtener acceso a la Lista de medicamentos usando el índice, ya sea por nombre genérico o comercial y por categoría terapéutica del medicamento. *En situaciones en las que un genérico equivalente aprobado por la FDA esté disponible, los nombres de marca se encuentran listados únicamente por motivos de referencia y no denotan cobertura de la marca, a menos que se especifique.*

Todos los medicamentos se encuentran listados en cada categoría en orden alfabético por nombre genérico. Cuando un medicamento genérico aprobado por la FDA está disponible para el nombre genérico listado, el nombre genérico se encuentra en **negrita**.

Para ciertos agentes dentro de la Lista de medicamentos, puede aplicar un lineamiento de prescripción recomendada. Estos se indican en todo el documento usando los siguientes símbolos:

|      |                     |  |
|------|---------------------|--|
| EDAD | Editar la edad      | La cobertura puede depender de la edad del paciente  |
| G    | Editar el género    | La cobertura puede depender del género del paciente  |
| PA   | Autorización previa | Requiere de un proceso específico de solicitud del médico  |
| QL   | Límite de cantidad  | La cobertura puede estar limitada a cantidades específicas por receta médica o por período de tiempo |
| ST   | Terapia de pasos    | La cobertura puede depender del uso previo de otro medicamento                                       |

Consulte el apéndice de lineamientos de recetas en este documento para obtener detalles sobre agentes específicos.

### **Cobertura de beneficios y limitaciones**

Este formulario impreso no proporciona información relacionada con la cobertura y limitaciones específicas a las que un afiliado individual puede estar sujeto. Muchos afiliados tienen inclusiones de beneficios, exclusiones, copagos específicos o falta de cobertura, los cuales no se reflejan en la Lista de medicamentos.

La Lista de medicamentos aplica únicamente a los medicamentos para pacientes ambulatorios proporcionados a afiliados y no aplica a los medicamentos que se usan en entornos para pacientes hospitalizados. Si un afiliado tiene preguntas específicas en relación a su cobertura, deberá comunicarse a Servicios del afiliado de VNSNY CHOICE SelectHealth al 1-866-469-7774, de lunes a viernes de 8:00 a. m. a 6:00 p. m. Los usuarios de TTY deben llamar al 711.

**Dependiendo de los parámetros de beneficios específicos del afiliado, los siguientes temas pueden aplicar:**

**1. Sustitución de genéricos**

Cuando se encuentren disponibles, los medicamentos genéricos aprobados por la FDA se usarán en todos los casos, independientemente del nombre de marca indicado. Los nombres genéricos se encuentran en **negrita** en la lista de medicamentos donde se encuentre un producto medicinal genérico aprobado por la FDA que esté disponible. Se obtiene mayor ahorro con el uso de equivalentes genéricos. Esta política no tiene el propósito de excluir o reemplazar los estatutos del estado que puedan existir. Todos los medicamentos que se encuentran o lleguen a estar disponibles como genéricos están sujetos a revisión por parte del Comité de farmacia y terapéutica de MedImpact. MedImpact aprueba dichos medicamentos de múltiples fuentes para agregarlos a la lista MAC con base en los siguientes criterios:

- Producto medicinal de múltiple fuente fabricado por al menos una (1) empresa comercializada a nivel nacional.
- Al menos uno (1) de los productos genéricos del fabricante debe tener una calificación “A” o que se haya determinado que el producto genérico no está asociado con problemas de eficacia, seguridad o bioequivalencia por parte del Comité de P&T de MedImpact.
- El producto medicinal será aprobado para sustitución genérica por parte del Comité de P&T de MedImpact.

Esta lista se revisa y actualiza periódicamente con base en la literatura clínica y características farmacocinéticas de las versiones disponibles actualmente de estos productos medicinales.

Si un afiliado o médico solicita un producto de marca en lugar de un genérico aprobado, y el médico determina que existe una necesidad médica documentada de la marca equivalente, se puede realizar una solicitud de cobertura usando el proceso de solicitud de medicamentos al 1-888-678-7741, las 24 horas del día, los 7 días de la semana.

**2. Diseño de beneficios por nivel**

La Lista de medicamentos se puede aplicar a un diseño de beneficios por niveles, donde el afiliado comparte el costo de la terapia con medicamentos con receta médica con base en el nivel del medicamento, copago o coaseguro. En la mayoría de los casos, los medicamentos genéricos disponibles serán cubiertos en un nivel más bajo por separado (copago bajo), los medicamentos preferidos de marca listados en la Lista de medicamentos serán cubiertos bajo un nivel más alto, y los medicamentos de marca que no se encuentran en el formulario serán cubiertos bajo un nivel de copago de medicamento de marca no preferida por separado. Los medicamentos esenciales para la salud de beneficio o preventiva, si están disponibles en el formulario de sus planes (aplica a planes nuevos y que no cuentan con derechos adquiridos), serán cubiertos sin costo compartido (cero copago).

## **DEFINICIONES DE LOS NIVELES:**

- NIVEL 1: Medicamentos genéricos preferidos (agentes de la Lista de medicamentos)
- NIVEL 2: Medicamentos de marca preferidos (agentes de la Lista de medicamentos)
- NIVEL 3: Medicamentos no preferidos (agentes que no son de la Lista de medicamentos)
- NIVEL 4: Medicamentos con cero copago o de prevención
- NIVEL 5: De venta libre (OTC)

### **3. Proceso de solicitud de medicamentos**

Dependiendo del diseño de beneficios del plan, puede aplicar un proceso de solicitud de medicamentos de la siguiente forma:

#### A. Excepciones de cobertura:

Los medicamentos que se listan en el formulario de autorización previa asociado (PA) requieren evaluación, según las pautas de autorización previa del Comité de P&T de MedImpact antes de su distribución en una farmacia de la red. Cada solicitud será revisada en base a la necesidad individual del paciente. Si la solicitud no cumple con los lineamientos establecidos por el Comité de P&T, la solicitud no será aprobada y puede que se recomiende terapia alternativa.

#### B. Obtención de cobertura

La cobertura, preguntas o información con respecto a la solicitud de medicamentos o proceso del formulario pueden obtenerse:

1. Enviando por fax un **Formulario de solicitud de medicamentos** a MedImpact al 1-858-790-7100.
2. Comunicándose a MedImpact al 1-888-678-7741 y proporcionando toda la información necesaria que se le solicite.

MedImpact le proporcionará un número de autorización, específico para la necesidad médica, para todas las solicitudes aprobadas. Las solicitudes no aprobadas pueden ser apeladas. La persona que escribe las recetas debe proporcionar información para apoyar la apelación basándose en la necesidad médica. La autorización previa generalmente no está disponible para medicamentos que están excluidos específicamente por el diseño de los beneficios.

### **4. Exclusiones generales**

- A. Medicamentos específicamente listados como no cubiertos.
- B. Cualquier producto medicinal usado para propósitos cosméticos.
- C. Productos medicinales experimentales o cualquier producto medicinal usado de forma experimental.
- D. Reposición de medicamento perdido o robado.
- E. Productos medicinales inyectables no autoadministrables, a menos que se especifique de otra manera en la Lista de medicamentos.
- F. Medicamentos de fuentes extranjeras o medicamentos no aprobados por la Administración de Alimentos y Medicamentos de los Estados Unidos, excepto en ciertos casos de escasez de medicamentos, cuando sea permitido bajo beneficio de la farmacia de la persona.

Los Comités de P&T y de la Lista de medicamentos reconocen que no todas las necesidades médicas se pueden cubrir con este documento y fomentan las investigaciones sobre terapias alternativas.
